Status In Progress

Description Information

Who are you trying to contact? The White House and President Obama

Subject Environmental Protection Agency

Description We here in WV are in a lot of trouble with our water supply. We are being told the water is safe but people are still getting sick and told for pregnant women not to use it. There is no way I was gonna use the water even if I wasn't pregnant. It's a shame that we can't trust the people responsible or WVAW cause they are concerned with covering their asses, getting this all over with, and profits. Only when outside sources declare the water safe will I use it for anything but I will still never ever drink it again. Nobody not even animals should use it cause too many are having issues afterwards, too many either are sick, having headaches, or skin issues. Imagine what the long term effects are gonna be if it's already causing such issues short term. How would you feel if your family and friends had to use this water? Our water should NEVER smell, be discolored, leave us feeling greasy or dirtier than before we showered, risk or cause us health problems, or leave us in fear. Someone has to stand up for us or else this will get swept under the rug just like past problems have. We deserve better than to be lied to and treated like we are stupid! Please use your power to help us before it's too late and people start dying.
